## Structure of a Zipper

### SLIDER

The slider joins or separates the elements when the zipper is opened or closed. Various types of sliders are available depending on use.

### NOTE

Insert pin, boxpin, and retaining box are not available for resale.

**ELEMENTS:** The teeth, also known as elements, are the parts on each side of a zipper that mesh, or engage, with each other when passed through the slider. When the left and the right side teeth are engaged they are called chain.

**TAPE:** The tape is manufactured exclusively for zippers. It is usually made of polyester, but depending on use, synthetic fiber tape, vinyl tape and cotton tape are also available.

**NOTE:** All zippers are distinguished by their elements, or teeth. Only 3 kinds of zippers exist... Metal, Vislon® (Molded Plastic), or Coil (Nylon). Metal are available in Antique Brass, Antique Nickel, Brass, Nickel/Aluminum, or Oxidized Black.

## Kinds of Zippers (3)

## Types of Function

Closed-end	Open-end (Separator)	Two-way Separator (Jacket)	Closed Zipper with Double Sliders (Bags, Luggage)	Closed Zipper with Double Sliders (Bags, Luggage)
------------	----------------------	----------------------------	---	---

Separates at top, closed at bottom

Separates in half when unzipped like a jacket

Separator that zips from top & bottom

Closed ends, arranged in head-to-head relation

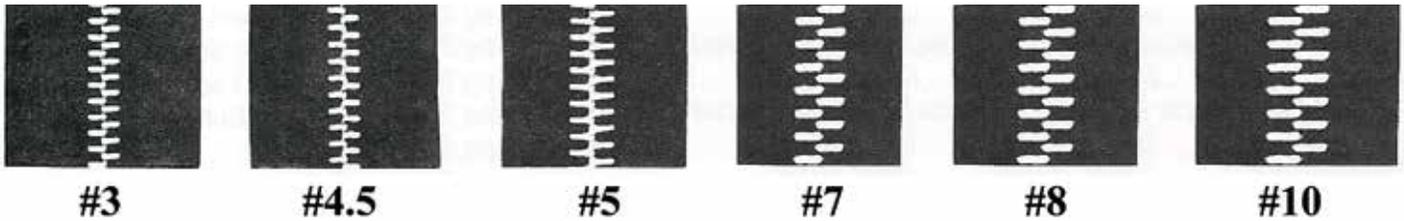

Closed ends, arranged in bottom-to-bottom relation (standard relation)

## SECTION 1 – YKK® ZIPPERS

All of the zippers listed on the following pages are stocked items. Please refer to either the price list/order form or the online order form for information on what sizes, lengths, and colors are stocked for each item. There you will find prices for all stocked items as well. The online order form can be accessed at [www.qualityzipper.com/order](http://www.qualityzipper.com/order) (qualityzipper.com>Shop - Order Here button on the home page). A hard copy of the price list/order form can be downloaded on the web site (qualityzipper.com>Resources>Price List). The online order form is the most current resource and does contain closeouts and specials, and does include photos of every item.

**SPECIAL ORDERS:** Please note that as a distributor for YKK® we can special order any YKK® item made. If you don't see the item you are looking for and order in larger quantities we can get you any item, color, and lengths you want. Please refer to the information on special orders in the FAQ section at the back of this catalog.

### METAL ZIPPER SIZE CHART

\*Note: some competitors refer to #5 as #6 and #10 as #9, but #5 and #10 are the correct YKK sizes.

## SECTION 1-A: YKK® ANTIQUE BRASS, ANTIQUE NICKEL, OXIDIZED BLACK JACKET ZIPPERS

This separating jacket zipper has metal teeth. The Antique Brass toothed zippers have that 'old-fashioned' look that is so popular in leather jackets.

All the popular colors and sizes

Size #5, #7, #8, & #10 are available

2-Way in #5, #8, and #10

New products now available in #5 & #10 separating Jacket zippers: Antique Nickel and Oxidized Black!

Antique Nickel (#5 & #10)

Oxidized Black (#5 & #10)

*Lists and photos of each and every zipper stocked can be viewed online; go to [www.qualityzipper.com/order](http://www.qualityzipper.com/order)*

## SECTION 1-B: YKK® BRASS JACKET ZIPPERS

This separating jacket zipper has metal teeth with brass (gold) finish.

Lots of colors are available

2-Way Zippers in #5 and #10

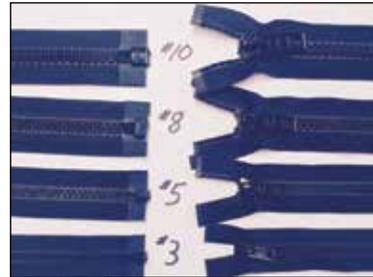

Size #5, #8, and #10

## SECTION 1-C: YKK® VISLON® (MOLDED PLASTIC) JACKET ZIPPER

These very popular separating zippers are found in all of today's outerwear. Plastic molded teeth match the color of the tape. These light weight zippers are very durable and are weather resistant. Use our color chart (back of the catalog) to match colors as 36 colors are stocked in #5 30".

A rainbow of 36 colors is available in #5 30"

Size #3, #5, #8, and #10

2-Way Zippers in #5 & #10

## SECTION 1-D: YKK® ANTIQUE VISLON® (MOLDED PLASTIC) JACKET ZIPPER

Same as 1-C Vislon® Jacket zipper, but instead of the teeth and slider matching the color of the tape, the teeth and slider are either antique brass or antique nickel.

## SECTION 1-E: YKK® TENT/ SLEEPING BAG ZIPPER

These separating zippers have a 2-tab reversible locking slider for use in tents and sleeping bags. Available in both Vislon® Molded Plastic and Brass. Cut to desired length.

Vislon® available in #5 110", #8 110", #10 120"

Brass available in #5 110" & #10 110"

## SECTION 1-F: YKK® NICKEL (ALUMINUM) JACKET ZIPPER

These separating metal zippers have silver colored teeth that are perfect for motorcycle jackets. These aluminum zippers are light and very economical. Aluminum is preferred to nickel because it is lighter and less expensive. Also, approximately 10% of people are allergic to nickel while aluminum does not have any allergic reactions. Available in size #5, #7, and #10.

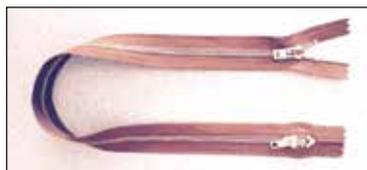

Nickel Jacket Zipper

Nickel 2-Way

## SECTION 1-G: YKK® COVERALL ZIPPER

This is a Closed-bottom, non-separating #5 brass 2-way zipper. This zipper is Ideal for coveralls and overalls. Very Durable. A Carhartt tan color is available that matches the Carhartt garments perfectly.

## SECTION 1-H: YKK® LINING/ UNIFORM ZIPPERS

The #3 lining zippers are perfect for raincoats and other zip out coat interlinings and have interchangeable exact tooth count and are center marked. Easily cut to exact size. Lining zippers are available in both aluminum and brass. #3 aluminum uniform zippers are great for police uniforms and sweaters.

**SPECIAL ORDERS** Please note that as a distributor for YKK® we can special order any YKK® item made. If you don't see the item you are looking for and order in larger quantities we can get you any item, color, and lengths you want. Please refer to the information on special orders in the FAQ section at the back of this catalog.

## SECTION 1-I: YKK® COIL JACKET ZIPPERS

The coil separating jacket zippers are perfect for wind jackets and light weight sweaters. Teeth and slider match the tape. New concealed coil with the backwards/upside down slider are now available!

Many colors available in #5 30"

Concealed tape zipper

Coil jacket zippers in size #3, #5, #8

2-Way Zipper

## SECTION 1-J: YKK® COIL SKIRT, SLACK, DRESS ZIPPERS

A #3 coil closed bottom, non-separating zippers with strong coil teeth that matches the color of the tape. These light-weight zippers are found in skirts, dresses, slacks, and light-weight pants. Available in 3 lengths and 33 colors!

## SECTION 1-M: YKK® #5 BRASS & ANTIQUE BRASS JEAN ZIPPERS

These closed bottom, non-separating brass & antique brass zippers are a #5 weight with 9/16" tape. These metal zippers have a spring lock slider. Perfect for blue jeans! Choose from 5", 7", 9", or 11".

## SECTION 1-K: YKK® INVISIBLE COIL DRESS ZIPPERS

These light weight closed bottom, non-separating coil zippers have a tear-drop slider and coil teeth that is concealed within the tape. Great for wedding gowns and elegant dresses. #2 is the standard size and now we stock a larger size #3 as well!

## SECTION 1-N: YKK® #4.5 BRASS TROUSER ZIPPERS

Same type of zipper as the jean zippers in section 1M except in a size #4.5 with 7/16" tape; a bit lighter than the Jean Zipper. Perfect for trousers and pants!

## SECTION 1-L: YKK® COIL BOOT/PURSE/POCKET ZIPPERS

These #5 closed bottom, non-separating zippers are perfect for replacement in boots, purses, handbags, backpacks, etc. They have strong coil teeth that are very durable. Available in Coil, Antique Brass, Brass, Nickel, and Vislon®

## SECTION 1-O: YKK® #4.5 NICKEL (PURE NICKEL) TROUSER ZIPPERS

Same as the brass trouser zipper in section 1-N but the teeth are pure nickel (not aluminum). 7/16" tape. Perfect for fine men's trousers and pants!

## SECTION 1-P: YKK® COIL SEPARATING WATER REPELLENT (AQUAGUARD) JACKET ZIPPERS

These #5 coil 5/8" tape water-repellent zippers are good for gear and clothing you're going to use in wet weather conditions. The zipper tape is urethane coated to prevent water leakage and the pulls are specially designed to also minimize water intrusion. Good for rain gear, duffle bags and cases that might be exposed to water. These zippers are water repellent, not waterproof, and should not be used in wetsuits or other diving gear; those zippers, AquaSeal, are available through special order.

## YKK® SLIDERS

To order the correct slider, you will need to know 4 things:

- Size of slider
- The type of zipper the slider goes on (coil, vislon® molded tooth, or metal)
- Color of the slider
- What is the function of the slider is (locking, non-locking, springlock, reversible—horseshoe or 2-tab, or 2-way bottom)

*Choose from over  
145 different  
sliders in stock!*

**Locking sliders** have a lock pin. Use this slider for jackets, skirts, dresses, outerwear, etc. This locking mechanism keeps the garment from unzipping as it automatically locks when no force is placed on the pull tab. All vertical zippers should use a locking slider.

**Non-Locking Sliders** have no locking mechanism. Not intended for jackets; only for bags, luggage, purses, backpacks and all horizontal zipper applications.

**Springlock Sliders** are the same as locking sliders but are made specifically for jeans, trousers and pants.

**Reversible Sliders** allow the zipper to be zipped from either side. This is accomplished 2 ways. Either the slider has 2 pull tabs or a horseshoe track that one pull tab move along; often referred to as a 'flip over' slider. Reversible sliders can be locking or non-locking. Reversible sliders are found on reversible jackets and outerwear as well as tents and sleeping bags.

**2-Way Bottom Sliders** are found on 2-way zippers; 2-way zippers have 2 sliders, one that zips from the top and this one that zips from the bottom of the garment. The two way bottom slider is not the same as the top slider and is typically a locking slider found on jackets and outerwear.

**YKK® SLIDERS FOR VISLON® (MOLDED PLASTIC) ZIPPERS (SECTION 2-B)**

**Note: Only #5 & #8 Vislon® sliders are distinguished by Old/New Style; those are the only sizes YKK® has changed. All other sizes remain the old, rounded top style.**

**We keep a stock of all the YKK® compatible 'Old Style' Sliders for both #5 VISLON® and #5 COIL!**

**#5 Old Style (YKK® Compatible) Vislon® Locking Sliders**

**#5 Old Style (YKK® Compatible) Vislon® Horseshoe (flip over) Reversible Locking Sliders**

**#5 Old Style (YKK® Compatible) Vislon® 2-Way Bottom Slider (looks like top slider but works as a bottom)**

In addition to making sliders a breeze to order, we also make it very easy for you to check your order and stock your parts as each one of our sliders are individually packaged and labeled for your convenience!

Old Style 5C (round top)

New Style 5CN (pointed top)

Many years ago YKK® changed the production of some of the #5 & #8 Vislon® and #5 Coil sliders. The problem is that the old and new styles are slightly different in size and are not compatible. Fortunately, we stock both types for you because YKK no longer makes the old style of #5 Vislon® or #5 coil, we have to stock it in a YKK® compatible slider, but we assure it is a quality product that will work perfectly with the 'Old style' of YKK®

**#10 Non Locking**  
Brass, Nickel

**#10 Reversible (2-tab) Non Locking**  
Brass, Nickel

**How to tell the zipper size?**

In most cases you can look at the backside of the slider for a number that will indicate the size of the zipper.

The picture shows **10 C** on the back of the slider body. This indicates it is a size 10. The **C** indicates it is a slider for a COIL zipper.

**Structure of a Slider**

*To replace sliders, simply remove the top and/or bottom stops, and slide replacement slider into place on the zipper teeth. Finish by replacing the top and/or bottom stops.*

**New upside-down/backwards slider for reverse-type and water repellent coil zippers**

This coil slider is for zipper tape that hides the slider. This slider has a **thicker bottom** when viewed from the side. Available in #3, #5, and #8.

Please note that all of our sliders will fit YKK® zippers. If you are trying to replace a slider on a non-YKK® zipper you most likely will have to replace that zipper as different manufacturer's parts are usually not compatible.

**Sliders are packaged 10 per pack for the smaller sliders (#3-#7) and packs of 5 for the larger sliders (#8-#10). Buy packs of 100 at a 35% discount! 1,000 packs or more are discounted even more so contact us if you buy in bulk for a quote.**

## SECTION 2-D: YKK® TOP STOPS

## SECTION 2-E: YKK® BOTTOM STOPS

(SHOWN ACTUAL SIZE) Both Top Stops (section 2-D in the order form) and Bottom Stops (2-E) are available in three sizes (as shown from top to bottom) - #5, #7 and #10, and four colors (as shown from left to right) - Antique Brass, Gunmetal Black, Brass and Nickel. Both top stops & bottom stops are sold in packs of 100 and 1,000. 1,000 packs are discounted 35%.

### TOP STOPS

### BOTTOM STOPS

## SECTION 2-F: YKK® ZIPPER CHAIN

CONTINUOUS ZIPPER CHAIN comes in large rolls that can be cut to make and customize your own zippers. At least one end must be sewn closed. It cannot be used to make separating jacket zippers, only non-separating zippers. We sell zipper chain in 30 foot (10 yd) lots only or you can order the entire roll at a 30% discount! We stock the following in continuous zipper chain...

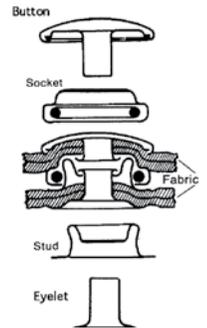

- #3 COIL black tape (656 feet per roll)
- #4.5 COIL black tape (656 feet per roll)
- #5 COIL black, brown, or white tape (656 feet per roll)
- #5 METAL – ANTIQUE BRASS TEETH black or brown tape (450 feet per roll)
- #5 METAL – BRASS TEETH black or brown tape (450 feet per roll)
- #5 METAL – NICKEL TEETH black tape (450 feet per roll)
- #5 VISLON® black tape (656 feet per roll)
- #8 COIL black tape (493 feet per roll)
- #9 COIL black tape (328 feet per roll)
- #10 COIL black tape (328 feet per roll)
- #10 METAL – BRASS TEETH black or brown tape (225 feet per roll)
- #10 METAL – NICKEL TEETH black tape (225 feet per roll)
- #10 VISLON® black tape (328 feet per roll)

...don't see the color or type of zipper chain...no problem, we can special order any type of zipper chain in any color from the YKK® factory as long as you order an entire roll.

## SECTION 3A: GARMENT SNAPS

Garment Snaps are the traditional 4 part all metal snaps with the button and socket that snaps into the stud and eyelet. Garment Snaps are available in 2 sizes: **BABY SIZE 20-L** and **REGULAR SIZE 24-L** as well as 4 finishes or colors: **ANTIQUÉ BRASS, BRASS, GUNMETAL BLACK, and NICKEL**. These snaps are sold in packs of 25, 100 (save 37.5%), or 1,000 (save 56.25%). Purchase in complete sets of all 4 parts: button, socket, stud, & eyelet or by individual parts at 25% of the complete set price. All parts are individually packaged.

STUD

EYELET

*See Fastener size chart on next page for actual size.*

## SECTION 3B: SPRING SNAPS

Spring Snaps are very similar to Garment Snaps with the following exception: the socket part of the Spring Snap contains two parallel springs inside its casing and a stud part has a closed nipple-shaped end. Spring Snaps are available in 3 sizes: **BABY SIZE 20-L**, **REGULAR SIZE 24-L**, and **LARGE SIZE 27-L** as well as 4 finishes or colors: **ANTIQUÉ BRASS, GUNMETAL BLACK, MILITARY BLACK, and NICKEL**. These snaps are sold in packs of 25, 100 (save 37.5%), or 1,000 (save 56.25%). Purchase in complete sets of all 4 parts: button, socket, stud, & eyelet or by individual parts at 25% of the complete set price. All parts are individually packaged.

STUD

EYELET

*See Fastener size chart on next page for actual size.*

## SECTION 3-C: SNAP TOOLS

We have the tools to seal snaps (section 3-C on the order form). These simple, hand-held tools only require a hammer to seal the snaps. Spring snap tools on the left include the round anvil, as well as a pair of hand-held setting tools. The anvil works with all three sizes of spring snaps, in contrast, each size of snaps requires a corresponding pair of the setting tools. Garment snap tools on the right include the round anvil and one hand-held setting tool per size. These tools are essential when working with the garment snaps and spring snaps; the snaps will not work without them.

## SECTION 3-D: JEAN BUTTONS

Jean Buttons are all metal and contain two parts: the Button and the Tack. Buttons are size 27-L and are available in either Antique Brass or Antique Nickel. The Button has the popular oak leaf design. Sold in sets (button and tack) of 25, 100 (save 37.5%), and 1,000 (save 56.25%)!

Antique Brass

Antique Nickel

## SECTION 3E: HOOK AND LOOP

Hook and Loop is stocked in 1" or 2" widths and the following colors: Black, and White. Other sizes and colors are available for special order. Hook and Loop is sold in 25 yd quantities. It consists of two layers: a "hook" side, which is a piece of fabric covered with tiny hooks, and a "loop" side, which is covered with even smaller and "hairier" loops. When the two sides are pressed together, the hooks catch in the loops and hold the pieces together.

HOOK

LOOP

## SECTION 3F: ZIPPER LUBRICANTS AND ZIPPER REPAIR TOOLS

### ZIPPER EASE

A stainless zipper lubricant in easy-to-use stick form. Assures smooth trouble-free operation of all zippers. It contains a special blend of waxes and lubricants that resists exposure to water or weather. Just apply like a crayon to zipper teeth and the job is done!

### ZIPPYCOOL

ZippyCool Cleaning Fluid, featuring the unique patented push/pull dispenser brush, removes harmful dirt, sand, salt deposits and other residue. Regular use of ZippyCool will prolong the life of ALL your metal, coil and plastic zippers. Great point of sale item to sell to your customers!

*Almost all Zippers use Sliders made of Zinc Alloy that are prone to sea corrosion, particularly in sea air or salt water. Always rinse any equipment that has been exposed to sea air or salt water with fresh water as soon as you are able to, and dry thoroughly. Spaying the zipper and cleaning with ZippyCool, or rubbing with zipper ease on the odd occasion will protect the Zipper and will also reduce friction, wear and tear and enhance the life of the Zippers. Remember, proper care of your Zippers will give you many years of loyal service.*

**Needle Nose Pliers** Excellent for repairing zippers and crimping all top and bottom stops!

**End Nipper Pliers** Ideal for removing zipper teeth when shortening zippers!

**Zipper Fixer... see page 2 for more information about this product.**

## FREQUENTLY ASKED QUESTIONS

Below is a listing of the most frequent questions from customers. For further explanation to these questions or if you have another question that is not answered below, please email your question to [qualityzip@aol.com](mailto:qualityzip@aol.com).

### **Can I order less than \$50?**

No, each and every order has to be \$50 or more. Sorry, but we are a distributor and we have to adhere to this minimum order to provide the best service to our customers. If you have an item that needs repair, we are not the source for you. Please take that item to your local alteration shop, shoe or leather repair shop, or drycleaner and most of these businesses will repair that for you. That's what these good folks do for a living and they will fix it like new for you.

### **Where do I find prices on your web site?**

Right on the [www.qualityzipper.com](http://www.qualityzipper.com) home page go to RESOURCES>PRICE LIST. The PRICE LIST contains a very well organized PDF of our Price List order form that you can print out. It is categorized for easy reference and contains just about every YKK® item that we stock. You will notice that there are different price levels for all of the items. We have built in quantity discounts so the more you order of an individual item, the more you save! This Price List can also be used as an order form. Our Online Order Form is a replica of the price list and also displays all prices; the online order form is an excellent source for up to the minute prices.

### **What is the best way to order?**

Whatever is easiest for you. Most customers are now using our Online Order Form on the website at [www.qualityzipper.com/order](http://www.qualityzipper.com/order) (or [www.qualityzipper.com](http://www.qualityzipper.com) > Shop-Order Here button on home page). It is simple and fast and has many great features such as pictures and descriptions of the items, merchandise totals as you order, safe and secure credit card payments, and a 5% discount (up to \$25) for every online order. If you are computer knowledgeable, this is the way to go.

Other ways to order are via fax, email, or mail. Filling out the Price List makes ordering simple by fax (701-772-2699), email ([qualityzip@aol.com](mailto:qualityzip@aol.com)), or mail (PO BOX 5204; Grand Forks, ND 58206-5204)

Calling in the order is always a welcomed option as well (1-800-245-9515). Please remember that call-in orders are subject to the most errors because the information is communicated through voice instead of visual written or online communication. To avoid these verbal communication errors, please make sure all call-in orders are organized and prepared for easy communication and fast service. Please use the Price List descriptions and section numbers to communicate the items you are ordering so we get you the items that you want.

### **Is it less expensive to order online?**

Yes. There is a 5% discount automatically applied to every online order (up to \$25).

### **I have never ordered online, is it difficult?**

We designed our Online Order Form to be as easy and simple as possible. It is a very fast and simple form to fill out just like the Price List. Follow the simple directions provided at the top of the online order form and it should be a breeze. There is also a video page that shows you how easy it is to order online (at [www.qualityzipper.com](http://www.qualityzipper.com) go to RESOURCES>VIDEO). If you still are having trouble even after viewing the video, please give us a call (1-800-245-9515) or send us a quick email ([qualityzip@aol.com](mailto:qualityzip@aol.com)) and we will make sure to take care of you.

### **Do you offer quantity discounts?**

YES. In fact the quantity discounts are built into both the Price List and Online Order Form. You automatically save when you order in quantity. There is a 15% discount when you order 12 or more of a zipper in the same length and color and up to a 30% discount when you order 100+ of a zipper in the same color and length. You save 35% on all Zipper sliders when ordered by the 100 pack. Additional quantity savings are offered on all snaps and other products as well, up to 50% or more. When ordering online these quantity discounts are automatically provided to you.

\*If you buy certain items in very large bulk quantities, please email us ([qualityzip@aol.com](mailto:qualityzip@aol.com)) for a quote for further savings that may be available.

### **Do you have closeouts or specials?**

Yes. All closeouts and specials can only be found on the Online Order Form because they change so often. [www.qualityzipper.com/order](http://www.qualityzipper.com/order) (or [www.qualityzipper.com](http://www.qualityzipper.com) > Shop-Order Here button on home page).

### **Do you match competitors prices?**

As long as we are comparing apples to apples on the same Made-In-The-USA YKK® products, we can assure you that you are getting a very fair price. If you still feel we are not meeting the prices you desire, give us a call or send us an email and we will work together to find a solution. Often I hear of other distributors that sell zippers at lower prices; many times they are selling cheap, non-YKK® zippers, which explain why they cost less. That is not comparing apple to apples; YKK® has an obvious quality advantage and does cost more. However, it is the distributors out there that claim that they are selling discounted YKK® zippers that you have to be aware of and this is why:

I can 100% assure you that every YKK® zipper and part we sell are genuine YKK® made zippers manufactured by YKK® employees. We are not only a distributor of YKK® products but an agent for you to get any YKK® item that is produced. We do not manufacture zippers and we are not a jobber. Many of these distributors that claim they are selling YKK® products on the cheap are only telling half the truth as they are really a jobber that combine components and make the zippers themselves. Some of the components they buy, like the sliders, are YKK® but many of these so called distributors assemble these YKK® parts on cheaper generic zipper chain that they get from China. The slider says YKK® but the chain is not. That is why many of these distributors are able to offer lower prices. The slider says YKK® but the product is not made in a YKK® factory by YKK® workers which means that no quality assurances can be made on their zippers. There is no quality control and there is no way that they can back up the quality control paperwork and government safety controls that we can provide directly from YKK® on all of the products that we, at Quality Zipper, distribute and quote to you.

Quality Zipper has been an Authorized Distributor for YKK® for the last 25 years. All of the zippers we quote and sell are genuine YKK® products that are assembled by YKK® employees, the vast majority are Made-In-The-USA at the YKK® plant in Macon, GA. Every YKK® zipper and YKK® part we sell adheres to all of the quality control specs for use in clothing; all of the information and paperwork that verifies these specs can be found on the YKK® website here: <http://www.ykkfastening.com/quality/index.html>

### Does the online order form contain all of your in-stock items?

Yes. It is constantly updated with all the items currently in stock. If you cannot find the YKK® item you are looking for on the Online Order Form, we can special order it for you (see information on special orders)

### Why do I have to fill out all of my information each time I order online?

We chose not to have customer information stored on the Online Order Form for a number of reasons. The main reason is that to do this we would have to require password protection to secure the information which brings in more levels of difficulty and security issues. We want to keep this as simple and as secure as possible for everyone. Adding the password layer creates another layer of difficulty and a chance that vital information could be obtained as then all of our vital customer information would have to be retained on an Internet database. As a small business, we do not want to deal with that and the complications that can result. In addition, most of our customers are appreciative that there is not an additional password to remember as we get bogged down with all the security passwords we deal with everywhere. In addition, there are many of the programs you may currently use that will auto fill all of your information for you. Google Chrome, Explorer, McAfee, etc. all will remember the information you put into any form and will automatically fill in that form for you so that capability is already available for you if you choose to use it.

### I don't see the item I want to order on either the price list or the online order form; can I place a special order?

Absolutely! We do many special orders, especially for our manufacturing customer base. All special orders are produced for you at the YKK® factory (most at the Macon, GA facility) and drop shipped right to your door from the factory. We can get you any YKK® product in any length and color!

### What are the minimums for special orders?

It depends on the item, typically 50 to 100 per item of the same length and color. This minimum quantity is less for items that are 48 inches or longer. Because special orders are made by the YKK® factory exclusively for you, they cannot be returned. All special orders will be invoiced at the time order is placed.

### How long do special orders take?

That depends on many variables. Remember, these special orders are not in-stock items and must be made for you at the manufacturing facility. Generally any YKK® product made in the USA takes anywhere from 2-4 weeks depending on the production schedules at the time. Some YKK® products are only made at the YKK® Japan facility and that can take 8-12 weeks for delivery by boat or 4-6 weeks if you choose to have the products shipped by Air, which costs extra.

### How Do I place special orders?

The items listed on the Price List/Order Form are mainly stocked for our customers in the repair trade. If you are looking for an item that is not listed here, no worries as we can get you any item YKK® produces in any length and color. Please send Scott an email at [qualityzip@aol.com](mailto:qualityzip@aol.com) for special order requests and he will get back to you with price and lead time. In your request for a special order please provide the following:

1. TYPE OF ZIPPER...Coil, Vislon® (molded plastic), or Metal (if metal what finish of teeth...brass, aluminum, nickel, antique brass, etc.)
2. SIZE OF THE ZIPPER...each zipper is sized with a number based on the size of the teeth...the larger the number, the bigger the teeth.

Standard size is #5 and the largest size is #10. Usually the slider will have a number on the body that will tell you the size of a YKK® zipper.

3. FUNCTION OF ZIPPER...Separating Jacket Type, Open Top Closed Bottom, Closed Ends, 2-WAY, Reversible, etc.
4. TYPE OF SLIDER ON THE ZIPPER...Locking, Non-Locking, Reversible, etc.
5. LENGTH OF THE ZIPPER. Zippers can be ordered in any length down to 1/10th of an inch.
6. COLOR OF THE ZIPPER TAPE. Every color under the rainbow is available from YKK®.
7. QUANTITY. Tell us how many of each zipper you are requesting because the more you order the more we can discount.
8. Please provide pictures if you have them or YKK® item codes as well as this will help us determine exactly what you need. This is not necessary but will help if available.
9. If you need help determining any of this information you can find it within the about menu button at the home page of [www.qualityzipper.com](http://www.qualityzipper.com).
10. Special orders drop shipped direct from the YKK® factory cannot be returned, only in-stock items may be returned, so it is very important that we make every effort to be clear on the exact item to be special ordered.

### How long will it take to get my order/when will my order ship?

All stock orders are processed the same day that you place the order (up to 2:30pm Central time Monday to Friday). All orders are sent via UPS ground or USPS priority mail. Most of the USPS orders are delivered within 2 business days (Saturday delivery is included on USPS orders). UPS orders may take a day or two longer depending on where you are located. We will ship your package the fastest and most economical way. Please go to CUSTOMER SERVICE>FAST/FREE DELIVERY menu on the home page of [www.qualityzipper.com](http://www.qualityzipper.com) to see delivery schedules. We can expedite any order if there is a rush; there will be the appropriate extra charge for this expedited service and we will work with you and the shipping carrier to help keep that cost as low as possible.

\*Make sure you provide your email address at time of order to get package tracking information emailed to you so you know exactly where the package is and when it will be delivered.

### What are my payment options?

Most customers choose to pay by Credit/Debit card. We accept Visa, MasterCard, Discover, and American Express. All of our credit card processing is 100% secure. We are a small business and we have complete control of our databases so there is no chance of your information being compromised with us. In addition, our online order form has the most secure form of online payments possible...no worries when purchasing with us. If you would like to be considered for an open billed account, fast and simple one page credit applications are available at <https://www.qualityzipper.com/order/images/creditapplication.pdf>. Open account terms are NET 30 DAYS. Past due accounts are subject to a 1.5% monthly finance charge (18% annually). This finance charge will be assessed on all late invoices, no exceptions. All past due accounts are automatically sent to a collection agency after 60 days past due. Statements are mailed monthly for past-due accounts only.

C.O.D. is also an option. There is an additional fee to send UPS COD. UPS driver will have to be paid upon delivery for this service. Company check is acceptable payment for COD.

\*All first time orders must be with paid by credit card or C.O.D., then

WWW.QUALITYZIPPER.COM

1-800-245-9515

YKK

Little Parts. Big Difference.™

upon filling out credit application open billed terms of net 30 days can be extended. Returned NSF check fee is \$20 for each occurrence. Credit card payment must occur at time of sale; credit card payment issued days after the sale will incur a 3% charge on the total of the balance paid.

**Are all the colors on the color chart available for all zippers?**

No. The color chart located at RESOURCES > COLOR CHART on the home page of www.qualityzipper.com and on the back of the catalog, is a general view of the colors we have available in some of the zippers. The price list and online order form will list which zippers are available in each selection. Cross reference that with the colors shown on the color chart. If that color is not listed it can be special ordered (see information on special orders), literally hundreds of colors can be special ordered for every zipper.

**What is your backorder policy?**

Backorders are rare, less than 4% of orders. When backorders do occur, the backordered item will be circled on your packing list and an estimated date of shipment will be noted on the invoice. Backordered items will be shipped to you at no charge when the product arrives.

**Will it be easy to check my order in?**

YES. When your package arrives you will find your merchandise to be neat and orderly. All zippers will be organized and rubber banded and all zipper parts and snaps will be packaged and labeled for easy check in. You can see how neat and packaged your order will be by going to the CUSTOMER SERVICE menu at www.qualityzipper.com. Your invoice will be inside your package and will be stapled to the packing list. The packing list will either be our price list or a printout from the online order form. A new price list/order form will be included in your package.

**Can I add on to my order after it is placed?**

Yes, but it might incur a second package and the shipping cost associated with that. Since we ship right away it is always wise to have your order organized and place the entire order at one time as we do our best to ship your package right away.

**What is your return policy?**

All returns must be returned to us within 15 days of sale. Authorization must be obtained prior to any return. Unauthorized returns and all returns that are not a result of our error could be subject to a 20% restocking charge. Special orders from the factory cannot be returned, only stock items may be returned. Upon authorization, returned items should be sent to Quality Zipper; 308 2nd Ave N STE 201; Grand Forks, ND 58203.

**Where are YKK® products made?**

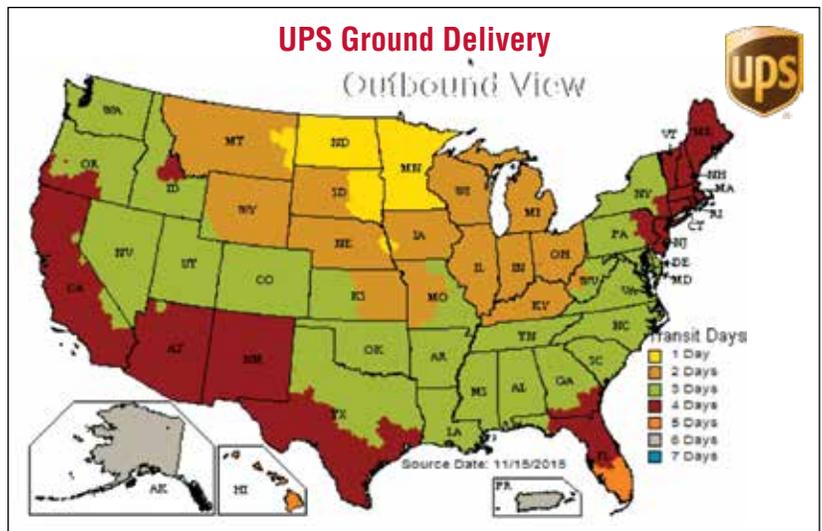

About 95% of the YKK® items we stock are made in the USA, most at the manufacturing facility in Macon, GA. YKK® has manufacturing plants in many countries all over the world but just about all of the popular items that we choose to stock are made in the USA!

**What are your business hours?**

Phone hours are Monday – Friday 8:30 to 4:30 pm Central time. Online orders can be placed 24/7/365 days a year via www.qualityzipper.com/order In addition, email is another way to get ahold of us after hours at qualityzip@aol.com. The website www.qualityzipper.com is an excellent resource that is also available 24/7/365 days a year to help you with all your questions.

**Do you offer free shipping?**

Yes! All in-stock orders over \$150 (merchandise total after all discounts) are shipped for free. Otherwise, there is a flat \$9 fee for orders under \$150. For COD orders there is a \$12.50 extra charge on all orders. All special orders will be assessed shipping charges from the YKK® factory it is produced at.

**USPS**

USPS priority mail service is 2-3 days. (2 days urban, 3 days rural) Includes Saturday delivery.
